

MIDWEST NATURAL LAWN CARE COMPANIES

A Factsheet From Midwest Pesticide Action Center

*The following companies are included for using or offering a natural lawn care approach meaning that they may still use chemicals, but only as a last resort with the least toxic product. Others on this list offer a 100% organic lawn care option with no chemicals for weed control. If concerned about exact products used, please contact the provider.

MPAC does not recommend any lawn care company.

We have listed companies that have self-reported as offering alternatives to traditional chemical lawn care.

Always call and discuss your concerns and needs with a company before contracting for service.

Midwest Pesticide Action Center is dedicated to reducing the health risks and environmental impacts of pesticides and promoting safer alternatives.
